9th International Conference on Insulated Power Cables

Paris - Versailles, France, 21 - 25 June, 2015

Deadlines :

Submission of abstracts: 15th November, 2014

Submission of full texts: 15th April, 2015

What is Jicable'15 ?

Jicable'15 is an international forum for the exchange of information in the fields of research, industrial development, installation, operation and diagnoses relating to insulated power cables and their accessories from low voltage and special cables up to ultra high voltage cables and new technology cables.

Why is Jicable'15 important ?

Insulated power cables are increasingly used in electric power transmission and distribution networks. This is due to the significant progress achieved in the development of new technologies with higher performances, and motivated by increasing environmental pressure. Cables are recognised as a reliable means for the transmission and distribution of electrical energy. Jicable'15 will allow in-depth analysis of the State-of-the-Art and future perspectives: new materials, evolution in technologies, manufacturing process, maintenance policies and condition assessment, upgrading, refurbishment, lessons learnt from service, dielectric phenomena, thermal and thermo-mechanical behaviour... new innovative technical solutions for high power transmission : new superconductive materials as well as a closer look at major submarine cable projects connecting High Voltage networks in many countries.

Who will be taking part in Jicable'15 ?

As for the 8 earlier Jicable conferences held between 1984 and 2011 (748 delegates from 47 countries), Jicable'15 will prove very useful to the following segments of the cable industry: researchers, engineers, decision-makers, raw materials suppliers, manufacturers, consultants, installers and users.

The following topics will be discussed:

- | | |
|---|--|
| <ul style="list-style-type: none">• LV and MV Cable Systems• HV and EHV Cable Systems• Submarine Cables• Economy and costs of Cable Systems• Ageing, Diagnosis, Maintenance, Remaining Life Estimation and Management• Cables for the Future | <ul style="list-style-type: none">• Technical challenges encountered with cable systems• Industrial and Special Cables• Cables, environment and sustainable development• Design• Testing Methods |
|---|--|

Abstracts :

All abstracts for proposed papers should be submitted online according to the instructions and the template available on the jicable site « www.jicable.org » by the deadline: 15th November, 2014.

Technical Exhibition:

An international technical exhibition will be organised during the conference from Monday June 22nd to Wednesday June 24th 2015 at the Conference site.

Conference Venue:

Jicable'15 will be held at the *Palais des Congrès* in Versailles, France (tbc).
